Department of Political Science

Activities for Slow Learners- 2020-21

The goal and objective of the college is to provide equal access to education to all students and to make quality higher education, universal, to all. This requires finding slow learners who are lagging behind in the study, giving them the guidance they need, making special efforts for them and boosting their confidence. The Department of Political Science, in view of these matters, evaluated the first Unit Test and analyzed it to find out the slow learners and implement some special activities for them. More guidance is needed to bring students who are slow learners or lagging behind in studies and therefore have low attendance into the stream of education. Sometimes they are absent due to their family reasons and their study speed slows down, they stay behind. They have to be taught by looking at their speed or progress. Sometimes the course has to be explained over and over again. Basically such students are not very interested in education. So to accommodate or to include them in the main stream of education, according to their interests and abilities through various programs we have to create interest among them. They need to be encouraged, nurtured and attraction should be increased about education, study among them. That is how the effort was made for these types of the students from our department in the year 2020-21. Report of action taken is as follows:
