Academic Year 2021-22

Details about Decentralization Policy

Shree Yogeshwari Educatin Society has been considered as an institute of teachers and staff since its inception. As per the directives of the state government and UGC college has the statutory bodies such as IQAC, CDC and Governing Council. Teachers and staff are elected on the Governing Council of the society (Institution) and on the local governing body that is CDC of the college also. Staff members are involved in strategic decision making of the institution and the college. Institute always adheres with the principle of decentralize and participative management. The approach of the administration is totally democratic in formulating the policies of Institution. It gives operational and academic freedom to the College Development Committee, Principal, Staff Academy and Coordination Committee to evolve and implement appropriate mechanisms and procedures.

Institutions administration is totally democratic. As regards the decision making relating to academic and administrative are fully decentralized and participative. The principal and the vice principal share the academic leadership and administrative responsibilities. Effective co-ordination is sought between management and the principal for better execution of various practices. The principal is administrative head of the college and shares powers and delegates the responsibilities for implementation process, to the vice principal and office superintendent for academic and administrative activities. The Fortier system comprising the management council, academic council, administrative wing and student council ensure that the quality of teaching learning on the campus is enhanced. The principal functions through the academic and administrative wing. Vice principal and IQAC work in close line with the principal. They are the medium between the principal, academic and administrative wing. HODs, librarian, physical director, PG director, chairpersons of committees, hostel rectors and the office superintendents coordinates administrative, co-curricular and extra-curricular activities, in consultation with the principal. They receive assistance from students' representatives. IQAC does planning and evaluation for the college and meets periodically throughout the year. At the level of department, HODs are encouraged to hold meetings on different issues, right from the issue of syllabus and changes in it and planning of teaching work through the evaluation of students. The meetings are held as and when are required regarding implementation and organization of certain activities like conferences, workshops, exhibitions, lecture series, day celebrations, etc. In this work, help of students and faculty from other departments' is sought. Thus non-teaching staff, students and the faculty participates actively in the execution and management of various activities on the campus.

The college has some privileges in participatory management like

1. President of the institution is the well-known doctor.
2. The secretary of the institution is a renowned poet and Rt. Head Master.
3. Close association with academic association and organizations' results into participative management and positive outcomes

Swami Ramanand Teerth Mahavidyalaya has constituted various committees for decentralization of the work. Following are the details of various committees, bodies and cells through which the delegation of authority and provision operational autonomy are implemented. Discipline Committee: The committee carries out responsibility of maintenance of general discipline, preventing ragging, as well as for initiating disciplinary action when required. Grievance Redressal Committee: All grievances/complaints about salary, payment, overtime, leave, Transfer, promotion, demotion, seniority, work assignment and working conditions and interpretation of service agreement, etc., made by the employee to the Employer will be settled/responded to as soon as possible. Anti-ragging Committee: To look into various aspects of ragging, means and methods to prevent it, possible action that can be taken against those who involve in it, and action against offenders in the event of ragging. To take decisions and actions related to indiscipline activities of the students in the college as and when required. Research Committee: The committee proposes need for research in the form of minor and major research projects and publication of research papers in impact Factor University approved journals. Different workshops and lectures on the research methodology are organized by this committee. In this way this committee maintains the research up gradation among faculty members by conducting different meetings and creating awareness among the faculty members. Purchase Committee: This committee plays an important role in finalizing purchases for different departments and units at college. Library Advisory Committee: Library committee constantly reviews the services provided by library and its staff. It aims at making the library services student friendly. It proposes certain changes for optimum utilization of the library. IQAC: IQAC manages effectiveness and sole concentration on the issue of quality and its assurance meets with positive acknowledgement by top and local level management. Alumni Association: It proves to be an independent body offering valuable suggestion on various issues pertaining to quality enhancement and development of college. Academic Body: academic body designs different certificate courses as per the demand and the need of the present time and execute them effectively. It gives necessary suggestions through different meetings. Different Associations: To give exposure to students in curricular and extra-curricular activities, college has established commerce association, social science association and literary association. Student up gradation committee: On the last year results, this committee finds out slow learners and plans the activities to bring them in the stream. Student Redressal Cell: Student redressal cell works on the issues of students and settle them smoothly. It redresses the problems which take place at campus and helps to maintain discipline. Internal Complaint Committee: It works to sort out women's grievances through proper system as per the UGC and Maharashtra Government guidelines. This cell conducts different programs on gender sensitization. UGC Cell: It communicates with UGC and maintains all the details of procured grants. It prepares proper plan for the utilization of the grants in proper manner through the different meetings. It maintains all the records and utilization certificates

Thus like the management of Shri. Yogeswari Education Society executes the Institution's administration in decentralized and participative way. The approach of the administration is completely democratic in formulating the policies of Institution. It gives operational and academic freedom to the College Development Committee, Principal and Coordination Committee to evolve and implement appropriate mechanisms and procedures. Principal as the head of the institution works on the principles of decentralized and participative execution of the administration by giving the responsibility to each one from the institution which leads to collective leadership and democratic approach to administration. A particular reflection of this practice can be seen in the following committees:

Governing Council (GC)

Teachers and professors were at the forefront in founding the Yogeshwari Education Society and the College also. Swami Ramanand Teertha and Babasaheb Paranjape the promoters of the institute actually

both were teachers. The Principal of the college, Shri A. M. Kulkarni, later became the president of the institute. Even today, teacher staff representatives are elected in the GC of the Yogeshwari Education Society. Teachers, professors and staff members are entrusted in important decisions of Yogeshwari Education Society and the college. They are involved in the decision making process. The GC is currently represented by two teacher's representative and the principal. Professors are elected, while principals are ex-officio members.

College Development Committee (CDC)

The CDC of the college i.e. College Development Committee is constituted as per the rules and regulations of the Maharashtra University Act of 1994 and Maharashtra University Act 2016. The CDC is responsible to the Governing Council of Yogeshwari Education Society. Teachers and professors are adequately represented in the College Development Committee. According to the University Act, two teacher representatives, one female teacher representative and one non-teaching staff representative are elected through the election process. Similarly, a representative of the department head and two experts from the social sector and two education experts are selected by the principal under the guidance of GC.

Internal Quality Assurance Cell (IQAC)

IQAC has been constituted as per the guidelines of UGC and NAAC and has been functioning in the college since 2003-2004. The principal of the college is the chairman of this committee and the chairman of the institute also supervises the committee as a senior guide and advisor. Representatives of other organizations are also elected in this committee. There are also representations from social workers, educationists and teachers and staff. The main thing is that college students are also represented in this committee.

Coordination Committee:

At the beginning of the academic year, Principal formulated the Coordination Committee for the effective functioning of the administration and academics in the Institutions. The chairman of the Coordination Committee is Principal of the college. Vice principal of the college is the member secretary of this committee. P. G. Director and Four representatives from heads of the departments, Librarian, Office Superintendent and Students' representatives are the members of the Coordination Committee. Every policy matter, requirements of the departments and Academic planning and execution, the proposals and decisions are forwarded by 'Staff Academy' are discussed in the coordination committee and placing it in the College Development Committee.

Staff Academy:

Staff Academy of the college is the integral part of decentralized and participative management. All the staff members are represented through the staff academy in the various strategic decisions of the college and in the implementation of various initiatives. Their views are determined in strategic decisions. The staff academy as well as the coordinating committee and then the administrative officer, the principal and then the College Development Committee and the Governing Council of the organization is already in a hierarchical structure. Most of the decisions are taken in the staff academy by consulting the staff members. The policy matters, academic calendar, schedule of the different programmes, time table, staff and students grievances are discussed and finalized in staff academy and communicated to coordination committee and CDC for approval and execution. All teaching and non-teaching staff is the members of staff academy. There is a staff secretary who coordinates the staff academy with coordination committee and with all office bearers with principal. Staff secretary has taken initiative in the activities of Staff Academy. Felicitation programme, Best wishes programmes, sendoff and welcome ceremony also had have been taken by the Staff Academy. Research Paper Presentation Programme and Book Reviews also been taken.
