## **Executive Summary**

The concept of gender equity refers to “fairness of treatment for both women and men, according to their respective needs. This may include equal treatment or treatment that is different but which is considered equivalent in terms of rights, benefits, obligations and opportunities” (International Labour Office [ILO], 2000).

Education deals with formation of habits of human beings. If so, we need education seriously to focus on promoting the equal participation of women and men in making decisions; reducing enrolment gap between women's and men's access; giving equality in learning process, educational outcomes and external results; and providing equal benefits for both sexes.

Gender equity in education means that males and females have equal opportunities in terms of economic, social, cultural, and political developments. If gender equity is exactly achieved this will contribute to future of girls and boys more than approaches men-centered, and girls will get benefits from public and domestic life as much as boy.

## **1.Safety and security**

Safety of girls is a top priority at every college campus. Nowadays, safe and supportive campus community is both an obligation and a challenge for college administrators and students. Institute should provide a comprehensive range of security amenities especially for girls within the premises, through a dedicated team of security personnel. It is a common phenomenon that most of the outstation students enrolling for different courses come out of their homes and cities for the first time in their life. It is therefore of utmost importance for institutions to provide them a comfortable and safe ambience of 'feel at home' within the campus.

Women safety at any college campus is a serious concern now. According to a poll, 86% of parents believe that the safety of the campus is one of the most important factors in choosing

one institution over the other. This problem can only be solved through awareness and prevention programs, dialogue and action. Students should be given regular lessons about sexual assault and its prevention from the school level itself so that they become more aware and alert and do not hesitate in taking preventive and safety actions in case such disdainful circumstances are encountered in future. So, following actions have been taken to ensure safety of the girl students-

## 1.1 CCTV Camera

24 hour CCTV surveillance is maintained in the college. It helps to keep a check on anti-social activities. Students and other employees in the college too remain cautious about the surveillance. Discipline is also maintained and it also provides a sense of security to the students and even their guardians. Students wear identity cards at all times to ensure their identity. The institution takes good care of the students in every aspect.

## 1.2 Visitor register

The institute keeps visitor log register to record the details of any person entering the college premise.

### 1.3 Restricted Entry

For security of the girls in the college campus and to restrict unwanted entry, proper boundary wall with fencing have been constructed. Signboards have been placed outside hostels to ensure restricted entry.

## **1.4 Female guard**

College also has female guards to keep the interest of girl students. They perform their duties meticulously. It also generates a sense of belongingness in girl students. All the girl students have the right to report to any female guard anytime and the guards are available to help without fail. It instills a sense of security among the female students and their parents too feel assured.

## 1.5 Female staff

Girls' hostels have only female wardens and supervisors. Duties of supervisors are arranged in such a manner that supervisors remain there continuously for 24x7hrs. Hostel wardens also reside within the hostel premises. Female sweepers are there in each girl hostel. No males are allowed in the hostel premises without due permissions.
